

PRESS RELEASE

LIBERTY LATIN AMERICA

LIBERTY LATIN AMERICA ESTABLISHES COVID-19: EMPLOYEE EMERGENCY ASSISTANCE FUND

Denver, Colorado – May 4, 2020: Liberty Latin America Ltd. ("Liberty Latin America" or "LLA") (NASDAQ: LILA and LILAK, OTC Link: LILAB), today announces that it has established the **COVID-19: LLA Employee Emergency Assistance Fund** ("Fund") to provide direct relief to employees and their families who are facing unforeseen financial or personal hardship as a result of the novel Coronavirus (COVID-19) pandemic. The Fund will be seeded with an initial contribution of more than \$300,000 from the Liberty Latin America Board of Directors. Additional funds will be raised through an online giving campaign, which also kicks off today [LINK].

President and CEO of Liberty Latin America, Balan Nair, said, "These are uncertain times, but the way we are seeing our employees come together to support one another and lift each other up is a true testament to the culture we have created across our business. Our employees come first, and this is at the heart of who we are at Liberty Latin America. We want our employees to know that we are here for them and their families throughout this crisis and we will be here long after it's over."

The COVID-19: LLA Employee Emergency Assistance Fund will be administered by the Cable & Wireless Charitable Foundation, Inc., a 501(c)(3)-public charity. All full-time Liberty Latin America employees will be eligible to confidentially apply for assistance, while donations made through the online giving campaign will be tax-deductible [for U.S. based taxpayers?].

In conjunction with the launch of the Fund, Liberty Latin America has continued to deliver essential connectivity to customers, communities, and countries in the region when they need it most. LLA is more committed than ever to the Caribbean and Latin America and has engaged in a range of initiatives to support local communities during this pandemic. Some specific examples include:

- In the Caribbean, through the Cable & Wireless Charitable Foundation, Inc., we have funded One on One Educational Services Limited to provide virtual learning access to over 130,000 students across the Caribbean at no cost to them. The virtual education platform, which offers a wide array of educational content, enables students to continue their studies at home during the COVID-19 crisis.
- In Chile, we have partnered with the government to roll-out an educational channel, VTR TV COVID-19, on our grid that creates awareness around the virus and provides practical tools and tips to help stop the spread. Programming includes original informative content produced by the VTR Foundation and is in partnership with the local government.

- Through Liberty Puerto Rico, we have Channel 85 and general programming that includes COVID-19 content focused on education, prevention, and financial support available for individuals and businesses from local and federal governments and private organizations.
- In Panama, we have Channel 19 and +Móvil – COVID-19, with programming in partnership with the Ministry of Health (MINSA) and in alliance with the State Radio and Television System (SERTV).
- And across all our markets we are issuing public service announcements and actively working with local governments to zero rate certain essential services allowing customers to reach critical government services free of charge.

Those interested in making a contribution to the COVID-19: LLA Employee Emergency Assistance Fund are encouraged to do so by visiting [LINK] to access the secure online donation portal.

The safety of our employees, their families, our customers, and the communities where we operate is our primary consideration. To learn more about our COVID-19 response, watch this video [LINK] and view our official statement here.

ABOUT LIBERTY LATIN AMERICA

Liberty Latin America is a leading communications company operating in over 20 countries across Latin America and the Caribbean under the consumer brands VTR, Flow, Liberty, Más Móvil, BTC, UTS and Cabletica. The communications and entertainment services that we offer to our residential and business customers in the region include digital video, broadband internet, telephony and mobile services. Our business products and services include enterprise-grade connectivity, data center, hosting and managed solutions, as well as information technology solutions with customers ranging from small and medium enterprises to international companies and governmental agencies. In addition, Liberty Latin America operates a sub-sea and terrestrial fiber optic cable network that connects over 40 markets in the region.

Liberty Latin America has three separate classes of common shares, which are traded on the NASDAQ Global Select Market under the symbols "LILA" (Class A) and "LILAK" (Class C), and on the OTC link under the symbol "LILAB" (Class B).
